Overview

[CONTACT](#)

Cincoze open frame industrial panel PC series (CO-100/P1301) is equipped with an Intel® Alder Lake-N processor, rich I/O interfaces (2.5 GbE LAN, USB3.2 Gen2x1, COM, DIO, etc.), and flexible expansion. The biggest highlight is its adjustable mounting bracket design (Patent No.: D224544, D224545, I802427) that allows flexible adjustment and multi-stage locking to greatly improve the convenience of installation in cabinets of various materials and thicknesses, effectively reducing the degree of customization required by equipment manufacturers when integrating with equipment. Its rugged design takes into account the application requirements for field-side HMI in harsh industrial environments.

AI & Multitasking Performance

The CO-100/P1301 is equipped with an Intel Alder Lake-N quad-core processor based on the Intel® 7 process. Compared with the previous generation Elkhart Lake platform, the CPU single-thread performance is improved by up to 130%, and the multi-thread performance is improved by 109%. The built-in UHD graphics chip improves AI inference, with 6.85 times the object recognition performance.

CPU Single-Thread Performance Up to **1.30X** Improvement

CPU Multi-Thread Performance Up to **1.09X** Improvement

Convenient Upgrades & Repairs

Cincoze Convertible Display System (CDS) patented technology makes field-side maintenance and future upgrades easier. Replacing a display or improving system performance only requires replacing a single component, which significantly cuts upgrade costs.

Patent No. M482908

Easy to Install

The exclusive adjustable mounting bracket has thickness adjustment options and supports multiple locking methods (panel and boss types), providing a simpler and more convenient integration for industrial machines using flat mount and standard mount.

Patent No.: D224544, D224545, I802427

Integrated Structure

The flexible and reliable design of the open-frame architecture panel PC enables deployment in equipment machines, and after removing the mounting bracket can be installed directly using the VESA mount for standalone use, or installed in a 19" rack for display function.

Wide Temps, Safe & More Reliable

The CO-100/P1301 series features a series of industrial-grade protections, such as a fanless design, wide operating temperature range, wide range DC power input (9 to 48VDC), and IP65 dustproof/water resistant front panel for field-side HMI applications in harsh industrial environments.
